

# MANHATTAN JURY AWARDS \$795,000 TO LEAD POISONED GIRL

Award includes \$120,000 for tutoring

## CONGRATULATIONS TO TRIAL ATTORNEY MITCH GITTIN

and the Fitzgerald & Fitzgerald Lead Poisoning Team

Ana, who was 12 at the time of trial, was lead poisoned when she was 5. Although her lead levels were never above 15 ug/dl, Ana had severe learning and speech problems. Trial Attorney Mitch Gittin presented convincing evidence and a thoughtful New York City jury made awards for speech therapy, tutoring, psychotherapy and loss of earnings.

## "We fight for kids' rights"

Lead Poisoning is a common yet totally preventable childhood disease. The undeveloped brains of young children are particularly susceptible to insult and injury. Often parents are not aware that even low blood lead levels can cause:

- Learning Disabilities
- Attention Deficits
- Hyperactivity
- Loss of I.Q.
- Cognition Deficits

If your child suffers from any of these injuries, call the law firm of
