

\$94.8 MILLION TOP MEDICAL MALPRACTICE VERDICT IN THE U.S.A. 2002*

*LAWYERS WEEKLY USA, Jan. 6, 2003

"we fight for kids with brain damage"

MEDICAL MALPRACTICE

can cause brain damage and learning disabilities

Both before and after birth, the undeveloped brains of babies/children are particularly susceptible to injury. Good care during medical treatment is required. Failure to provide good care to a pregnant mom or her baby can result in devastating injuries including:

*Cerebral Palsy

*Mental Retardation

*Erbs Palsy

*Learning Disabilities

*Seizure Disorder
