

LEAD POISONING

CAN SERIOUSLY INJURE YOUR CHILD

Lead poisoning is totally preventable. Young children in older buildings become poisoned through normal hand to mouth activities.

Even low blood lead levels can cause:

- **Learning Disabilities**
 - **Loss of IQ**
 - **Retardation**
 - **Hyperactivity**
- **Attention Deficit Disorders**

**CALL US EVEN IF ANOTHER
LAWYER HAS REJECTED YOUR
CASE**

RECENT SETTLEMENTS/VERDICTS:

- \$9 Million Jury Verdict for 2 Bronx children
- \$5 Million Jury Verdict for a Brooklyn girl
- \$385,000 Award from a Federal Judge for private schooling
- \$795,000 Manhattan Jury Verdict for low lead level poisoned child
- \$6 Million for 6 Bronx children
