

LEAD POISONING CAN CAUSE BRAIN DAMAGE AND LEARNING DISABILITIES

Lead poisoning is totally preventable. Young children in older buildings become poisoned from lead paint through normal hand-to-mouth activities. The injury can't be seen. The injury is brain damage and most children appear nearly normal.

Fitzgerald & Fitzgerald has taken twice as many lead poisoning jury verdicts in N.Y. than the next leading law firm.*

\$9 Million Jury Verdict for 2 Bronx children

\$5 Million Jury Verdict for Brooklyn girl

\$2.5 Million Jury Verdict for Manhattan girl

\$5.85 Million Settlement for 6 Bronx children

Find out why New York parents call Fitzgerald & Fitzgerald when they learn their child has been lead poisoned. Call us even if another law firm has rejected your child's case.

"We fight for Lead Poisoned kids"
